CONGRESSMAN SPRINGER, of Illinois,

predicts an extra session of Congress in September.

SECRETARY CARLISLE has begun

well by ordering a reduction of salaries in the New York custom house.

THE Polack with his bear has left

town, but our people will have to bear with the politicians until after the April election.

THE Ohio legislature has enacted

standard time for Ohio; but Sun time will keep right on, just the same. Since Joshua no one has been able to stop the sun.

ALEXANDER the Great is the only

celebrated man of history of whom it may be truthfully said: He was born in Europe, died in Asia and is buried in Africa.

ON the principle that a burnt child

dreads the fire it is presumed that Gov. McKinley will not experiment with any more American tin plate mills.—New York World.

THE first man nominated for post-

master in Ohio is W. H. McCabe, editor of the Coshocton Standard. This indicates that the President is not opposed to editors for postmasters.

THE plant of the Carnegie Steel Company

at Homestead, Pa., is increasing its capacity by one-half. This is one of the plants that was listed by the Republican papers to be closed if Mr. Cleveland was elected.

THE Boys in the Trenches have lived

a long time on wind. Now that the battle is won they naturally expect something better than hard tack and beans. P.e would strike them about right, Mr. Cleveland.—Zanesville Signal.

MR. CARLISLE has retained in office

a Republican who wanted to resign. This is a great deal better than retaining the hordes of Republicans who don't want to resign. We therefore score one for Mr. Carlisle.—Atlanta Constitution.

THE nomination of ex-Senator Eustis

of Louisiana, as Minister to France, (salary \$17,500) is a strictly first class appointment. Senator Eustis is a man of talent, thoroughly experienced in public affairs, and an accomplished scholar.

SOME one has discovered that the

Venus de Medici is a very imperfect type of feminine beauty. The present age possesses so many live women who are handsomer than the renowned marble beauty that this fact has been known for some time, but until recently no one has had the courage to express it.—Boston Post.

THE Baker's Journal in discussing

Judge Kirk's remarkable decision in the case against the striking railroad engineers, says:

"The railroads are showing their hands. It is the first clear evidence we have that the railroad monopolies control the courts and government, and it remains to be seen whether or not the people will allow the government to submit to the railroad autocracy. If so, we are to be reduced to a condition bordering on serfdom."

HON. J. H. DUMOULIN, ex-president

of our city council, is prominently mentioned for a European consulate. There are a large number of European consulates held by Republicans who have grown gray in the service and who have adopted European manners and customs and parted with all their American ideas. It would do the country good to have them called home and see America as it is today, with 44 stars upon our flag, and be allowed to distribute their easily gotten wealth among our people. Our consular service would be improved by sending abroad business men, like Mr. Dumoulin, who are successful business men, in love with our institutions and thoroughly imbued with the brand and

progressive ideas of a Democratic administration. Our exports are falling off, everywhere, because of the prevailing opinion abroad that the narrow Pagan policy of the McKinley bill is the dominant idea of American merchants and manufacturers. A change of consuls everywhere would be the speediest and most effective way to dissipate this delusive idea. And we know of no Democrat in this locality, or in any other locality, who is better fitted to typify and represent our business interests abroad than Mr. Dumoulin. His appointment would be very satisfactory to all our people.

SOME years ago in Vermont a widow who lost a little girl had the following epitaph placed on her tombstone: "Go sleep with ma, Almira S. Soon pa will come and sleep with thee." Since then, however, he has buried three wives, and is healthy yet.

It is only in conscious humor that we are sad, and the men on the Stock Exchange, I notice, get the same bitter lines around their mouths that one sees in Mr. Nat Goodwin, and which being meant for comedy, always suggests colic.—Nym Crinkle.

COL. DAN LAMONT, Secretary of War, and Richard Croker, Chief of Tammany, had a long conference in New York on Monday, and it is reported, the splendid work of the Tammany braves in the campaign of 1890 will be fittingly recognized by President Cleveland.

THE New York World claims to be a decent newspaper and a great newspaper; but its editorial rooms are used as a place where prize fighters meet and put up their bet money for brutal, unlawful and uncivilized contests in the prize ring. We don't call this decent business.

THE Washington correspondent of the Cleveland Leader says Theodore Runyon of New Jersey, appointed Minister to Germany, is an unknown man. This is not true. Mr. Runyon has been a conspicuous Democrat in New Jersey for the past fifteen years. For ten years he was chancellor of the State, and has twice been its candidate for governor.

DURING the last year the imports of woolen goods amounted in value to \$35,792,935; and the duties collected on them amounted to \$34,293,390, or not far from 100 per cent. By the time the goods reached the backs of American consumers the duties on them amounted to considerably more than 100 per cent. It is not strange that even among protectionists there should be some impatience for the work of Tariff Reform to begin.—Philadelphia Record.

THERE is a large sized row in the Woman's Relief Corps of Illinois. It broke loose in the State convention, in session at Springfield on Saturday. A violent attack was made upon Mrs. Pitkin of Chicago, and the validity of her marriage was assailed. She defended herself by telegraphing to New York for a certificate of her marriage and produced it to prove the falsity of the accusations brought against her. Mrs. Wallace of Chicago, who was also a candidate for department president came in for a share of the abuse. One very tongue-declat declared that Mrs. Wallace's candidacy was the part of a scheme which was represented in the Grand Army encampment by the candidacy of J. L. Bennett to forward the interest of what they are pleased to call the "whisky ring of Chicago." But Mrs. Wallace was elected.

THE Washington correspondents, since Congress adjourned, have been short of news, hence they have made the most out of the alleged differences of opinion between the Democratic President and the new Democratic Senate. These differences appear to be largely in the make-up of the Senate committees, especially the finance committee. This committee is directly antagonistic to the President on the silver question. It is also reported that Mr. Cleveland is getting afraid of Tammany, not so much on account of the organization itself, as on account of the Grand Sachem at its head, Richard Croker. In addition to this the three Senators who are especially not in accord with Mr. Cleveland, namely, Senators Hill, Brice and Murphy, have been placed where they can do the most damage if there is an open fight against important appointments.

NAVARE PRIMAIES.

The Two Tickets Nominated at the Primaries Held Last Saturday.

At the Democratic primary election held last Saturday the following ticket was nominated: Trustee, Joseph Geopfert Jr.; treasurer, A. B. Mase; assessor, precinct A, A. N. Borden; assessor, precinct B, Will H. Stahl; corporation commissioner, Victor Hug. I. B. Pocock and Peter Adams school directors, Lank Zinsmeister and John C. Miller.

At the Republican primary election held at the same time the following were nominated: Trustee, Al Rickard; treasurer, Alex Garver; assessor, precinct A, Sam Darr; assessor, precinct B, M. Trout; corporation commissioner, Chas. Andrews; Frank Davy and D. J. Wolf; school directors, J. M. Corl and John Fethingham.

There was not much interest manifested at either Democratic or Republican nominations, there not being a big ticket to nominate. The only interest that was taken was in the nomination of councilmen who would be favorable to the street railroad project. As it is, the new council will stand a majority for the street railroad.

The literary society of this place met on last Saturday evening for the last time. The house was not large enough for the immense crowd. Mr. D. W. Gans read a paper which was highly appreciated. A dialogue rendered by the young boys and girls of the school entitled "Jim Town Lyceum" was well represented. The society wound up with a drama entitled "The rich squirrel" which was very successful. The evening was a success. As this was the last meeting of the society they adjourned sine die.

The candidates from Alliance were as numerous as could be last week, all looking up their political friends.

There is some talk of surrendering up the corporation charter. The question will no doubt be submitted to the voters perhaps at the next regular election. It is citizens are of the opinion the corporation can be turned up just as easily as a falling off a log. The Ohio statute will no doubt play an important part in deciding the question.

A Much Married Woman.

Mrs. Fowler of this city, was married last January to her sixth husband, and strange as it may seem, five of them died exactly two years from their marriage day. Her present husband has been sick for the last four months with chronic jaundice, and was given up by four of our best physicians; as a last resort he began using Sulphur Bitters, and yesterday told our reporter that he had saved his life, smilingly saying that he guessed Mrs. Fowler would be unable to take a seventh better half for some time to come.—Exchange.

THE A. P. A.

Efforts Being Put Forth to Have England Repudiate the Appointment of General Pat Collins.

CLEVELAND, March 21.—[Special.]—General Patrick Collins of Massachusetts, the old Stark county boy who mined coal near Navarre, was recently appointed Consul General to London by the President. General Collins is a Catholic. The American Protective Association, an anti-Catholic organization which has shown considerable activity in recent years, has taken great offense at this appointment and is doing all in its power to have it annulled. Finding that little or no effect would result from a spirited remonstrance on this side of the water, the organization has taken steps to have the appointment repudiated by the House of Lords in England. A protest has been drawn up, and numerous signatures and has been sent to the House of Lords, calling upon that body to insist that President Cleveland send some one else than General Collins to represent the United States. The first action in the matter was taken by the branch of the organization in this city, the membership being strong. It is generally conceded here that the protest will have no effect and will be treated as it should be in every instance where an attempt is made to carry religion into politics or it is undertaken to disqualify a man owing to his religious beliefs.

Mary Ream Youst Dead.

Mary Ream Youst, widow of the late Henry Youst, was born in Stark county, April 14, 1815, and died March 17th at 10:10 p. m. at the home of her daughter Mrs. J. M. Wagner, and was buried Sunday afternoon, March 19th at 2:30 p. m. The deceased was 77 years, 11 months and 14 days old. Ursula, Akron; Winfield Scott, Akron; Zedley E. Akron; Mrs. Mary A. Taylor, Mogadore; Mrs. J. M. Wagner, Akron; Henry W. Mogadore, and Mrs. I. Paulus of Canton, are the sole surviving children of the family. The floral emblems were numerous and beautiful. As the deceased was a life long member of the Evangelical church, Rev. Sprong of that church officiated. GRACE WAGNER HOLCOMB.
